

Executive Overview

Dobson Fiber owns and operates a 5,500+ mile regional fiber optic network located throughout Oklahoma and parts of Texas and Arkansas. They serve the communities they live in and have delivered quality solutions for over 85 years. All solutions are provided over a state-of-the-art fiber network to provide optimum performance, with fully symmetrical bandwidth services. From small business to large enterprise, Dobson has the solutions to meet the needs of today's growing markets. With DIA, Broadband, Ethernet, WAVEPlex, and UCaaS (Hosted, SIP & PRI) they can reach any size of organization while off-ering 24/7 technical support and a customer service center located in Oklahoma City, OK.
